Executive Summary

Introduction

The State Chancellor’s stated intention of the student equity plans is to “ensure equal educational opportunities and to promote student success for all students, regardless of race, gender, disability, or economic circumstances”. This is in direct support of the mission of Cañada College which declares our intention to provide “our community with a learning-centered environment, ensuring that students from diverse backgrounds have the opportunity to achieve their educational goals by providing transfer, career/technical, and basic skills programs, and lifelong learning.” Thus, the Student Equity Planning process and associated funding will help us to better carry out our mission by calling on us to look deeper into our institutional data and take action to address the inequitable outcomes that exist on our campus.

In response to the August 2014 announcement of Student Equity funds, the Academic Committee for Equity & Success (ACES) was formed by the merger of the Basic Skills Committee with the Committee for Student Equity. The committee works to address issues of student equity and student success in courses below transfer by supporting tutoring and proactive counseling for students as well as professional learning for faculty, staff, and administrators. The interventions below are organized in collaboration with a Title V (HSI grant), the SSSP Plan, and institutionalized college structures. In addition, the college is collaborating with the charge and opportunity of AB 86 with Adult-Education Career and College Educational Leadership (ACCEL) in San Mateo County to facilitate the transition by creating pathways for from Adult schools to community college.

Theoretical Framework

Foundational to the work of the Cañada College ACES committee is a focus on equity mindedness as described by Bensimon (2005). On an institutional level, this committee has attempted to develop a culture where it is expected that data gathering, analysis and research to understand why the institutional inequities occur before trying to design solutions.

The committee has created “the time and space for discussion and learning from one another in

Inquiry as Engine: ACES Professional Learning

Figure 1 A visual representation of the Equity Planning and Inquiry Process at Cañada College

order to create knowledge” to direct the action.

The goal is to build habits of inquiry and collaborative-change into the fabric of the institution so that practitioners drive the planning, execution, and assessment of interventions.

Target Groups

We used both the 80% index and the gap analysis, along with consideration of the size and relative size of each group to determine areas of focus in addressing disproportionate impact. Each of the subgroups experienced disproportionate impact in at least one indicator with an average of 2.5 indicators per sub group. The following groups emerged as a priority focus for each of the indicators. The complete disproportionate impact study is included in the Body of this plan, and can be found here: [Student Equity data](#).

Hispanic Students comprise 40% of our student population. As a Hispanic Serving Institution, we have made considerable efforts to improve outcomes for this population. Yet, in the GAP analysis we find that Hispanic students fall 4.3% points below average in Course Completion and 17.5% points below average in Transfer. We are targeting this

Figure 2 Student Ethnicities Cañada College

disparity through proactive retention strategies focused on the most vulnerable classes as well as special programming such as the Puente learning community and Dreamer-resource activities.

African American Students are 3.4% of our enrollments and experience disproportionate impact in Course Completion, English and Math sequence Completion and Degree and certificate completion. In the area of Transfer, African American students comprised only 1.7% of the Transfer-ready cohort, indicating a disparity in representation that is worth attention. To address this, we have created the ‘Blacademia’ working group comprised of faculty, staff, administrators and students to design culturally relevant community building and professional development activities to help address a campus and classroom climate that may contribute to the disparities for African Americans. We also anticipate that the proactive retention strategies will help to increase completion and success rates for African American students.

Pacific Islanders are 1.8% of our student population and experience disproportionate impact in Course, English, Math and ESL sequence completion as well as Degree and Certificate rates. As of this writing, no targeted programming for this group exists beyond our general proactive

retention strategies and cultural responsive pedagogical trainings. In Transfer they are proportionally represented at 2% of the transfer-ready cohort with a corresponding transfer rate of 43%.

White Students only experience disproportionate impact in the area of Access. White students are “underrepresented” in that they comprise 43.2% of the population in our service area and only 25.8% of our students (p-index=0.6). We feel that addressing this issue will coincide with other outreach and publicity measures intended to slow our overall decline in enrollments.

American Indian and Alaskan Native comprise 0.2% of our student body with a head count of just 11 students in the 2014-2015 school year. These students experience disproportionate impact in the areas of Course Completion, English Completion and Transfer. We expect that our intensive proactive retention efforts will help address the disparities for these students and will help us to surface their specific needs. As of now there are no other targeted interventions for this specific group.

Asian Students comprise 12.8% of our student body. They are underrepresented at our college in that our service area is 27% Asian and experience disproportionate impact in the areas of English and ESL completion. The ESL and English departments are employing retention strategies that are intended to help raise the completion rates for these students, while we also expect

Students identifying as Multiple Races or Unknown Race/Ethnicity are 12.9% and 2.9% of our students respectively. It is not clear at this point how to target programs to these groups, aside from the fact we believe our core strategies of Proactive support, Curricular Innovation, and Direct support and Financial literacy, will help close achievement gaps for all students. We also recognize the need to drill down into this category to better understand the ethnic and racial combinations that are most underserved.

By Gender, our students identify as 59.8% female, 37.8% male and 2.5% unrecorded. Of these groups, male students experience the highest levels of disproportionate impact in the English Completion, ESL Completion, and Degree or Certificate Completion indicators. For those whose gender was ‘Unrecorded’ (a total of 155 students) the only disproportionate impact occurred in the English and Mathematics Completion indicators. In the Access indicator, Males are underrepresented (p-index=0.77) while the lack of data for “unrecorded-gender” made comparison with the service population impossible. We are looking into adding identity options such as “Transgender” and “Intersex” to our admission materials to learn more about the composition and needs of the “unrecorded gender” group.

Age groups experiencing the most disproportionate impact include those under 20, and those students in the 40-49 year old range. In terms of indicators, almost all age groups experienced disproportionate impact in the areas of English completion and Transfer, with just the 50-59 year olds experiencing disproportionate impact in Mathematics completion. All students 30 and over are underrepresented on our campus, leaving some of the indicators with less than 10

students for which to calculate indicators. The main targeted intervention to address these disparities is the College for Working Adults (CWA)

Disability status did not seem to have an association with any disproportionate impact. Since disability status is defined by those students who register with the DSPS office, the category includes students with physical as well as developmental, cognitive or learning disabilities who have taken the initiative to sign up for services. Our current data collection system does not allow us to further disaggregate this data to see differences amongst students with different categories of disabilities. We also do not assume that all students with disabilities are registered with DSPS. In our plan, we therefore do allocate funds to support a Learning Disabilities counselor who will perform LD testing on site to increase the number of students who can take advantage of the DSPS resources.

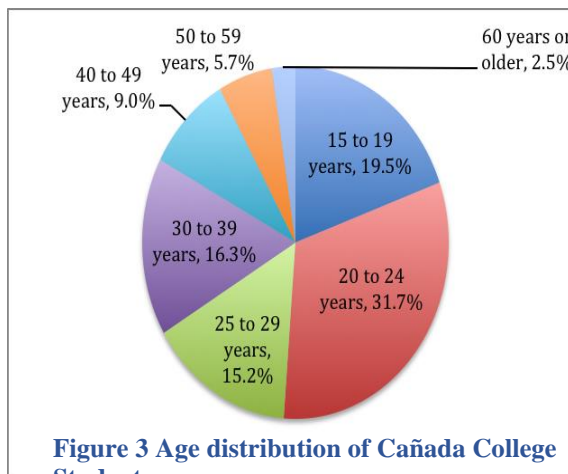

Figure 3 Age distribution of Cañada College Students

Low Income students experienced disproportionate impact in the Course Completion and Transfer indicators. Both the Sparkpoint center and the Textbook Learners Collection (TLC) program are designed to provide direct assistance and financial literacy support to those students, in an attempt to eliminate income as a factor in low completion and transfer rates.

Probation and Dismissal students are defined to be those students who have struggled academically. Unsurprisingly, they showed up as experiencing disproportionate impact across all relevant indicators (Access can't be calculated for this group). This analysis caused us to look at the interventions aimed at probation and dismissal students which lead to the initiation of the Students Transitioning Off Probation (STOP) program which has since been institutionalized. Workshops to help explain to these students how to remove themselves from probation were designed through our ACES Inquiry process and are now run regularly by the Counseling Department. We are also training faculty on effective practices for assisting this group of students.

Veterans are vastly underrepresented on our campus at 1.5% of students, yet 5.7% of San Mateo County residents. This is due in part to the VA/GI bill funding formula which provides funding at different levels depending on the area of residence.. In addition to being underrepresented, our student veterans experience disproportionate impact in overall course completion, degree or certificate attainment, and transfer (0 veterans were transfer-ready in the reference year). We have developed a plan to increase direct support in the form of book and transportation vouchers, as well as a more concerted effort to connect these students with proactive retention and case management through the existing Veterans' Resource and Organizing Center (VROC).

Foster Youth are also overrepresented at 0.8% of the student population, while only 0.3% of San Mateo County residents.

Goals

Access

- A1 Increase enrollment for target students.
- A2 Increase average placement level for students in target populations in ESL, Math and English from current levels.

Course Completion

- B1 Increase successful course completion for target students
- B2 Increase basic skills sequence completion for target students
- B3 Increase number of classified, faculty, and administrators participating in inquiry-based professional learning

ESL and Basic Skills Completion in Math and English

- C1 Increase successful course completion for target students
- C2 Increase basic skills English and Reading sequence completion for target students
- C3 Increase successful course completion for target students
- C4 Increase basic skills Math sequence completion for target students
- C5 Increase successful course completion for target students
- C6 Increase ESL sequence completion for target students

Degree and Certificate Completion

- D1 Increase degree and certificate completion for target students

Transfer

- E1 Increase transfer rates for target student

Activities/Interventions

The activities associated with the Student Equity Plan were developed both from existing campus interventions, our collective experiences with interventions through the Basic Skills Plan, along with new insights developed through campus dialogue. Here we present the overarching, or 'crosscutting' strategies that are incorporated into each activity, then list each associated activity with a brief description. Many of these activities address multiple indicators, but we have attempted here to sort them accordingly.

Crosscutting Strategies

All of the activities incorporate what have emerged as effective strategies for increasing success and retention for at-risk students. The following four strategies can be found at work within each of our Student Equity related activities:

- **Proactive (Intrusive) support and case management.** This includes the work of various retention specialists who collaborate with faculty and campus resources to ensure students experience a sense of "authentic care" from a representative of the institution and are effectively connected to available resources. As will be shown below, we have several designated 'retention specialists' who work with faculty and program staff to follow up with students and connect them to resources.
- **Curricular and Pedagogical Innovation:** This includes efforts to incorporate more research-based effective practices into classrooms across. It also includes efforts at redesigning remedial pathways through Math, English and ESL acceleration.
- **Direct support and financial literacy.** Our Sparkpoint Center offers financial literacy training and partners with United Way to deliver direct assistance. We have also created a book-loan program through the library, and plan to disperse bookstore, transportation and food vouchers to specific student populations experiencing disproportionate impact.
- **Intentional Programming for underserved groups.** Efforts such as Puente, DREAMers, Blacademia, and the Men of Color Initiative represent efforts where underrepresented minorities can intentionally build communities on campus. While we aim to make the entire campus a safe space for all students, having intentional communities can help students feel represented and empowered. These also offer a means to generate knowledge of effective practices that can be spread to other classrooms and throughout the campus.

Initiatives to support disproportionately impacted students include:

Access

The following activities relate to our ability to reach our goals A1 and A2 related to improving access and the placement level of incoming students.

ACADEMIC SUPPORT through Word, Math, and Physics Jams as well as COLTS Academies providing entry-level support for all students. These bridge programs are heavily publicized to high schools and offer an attractive, student-friendly public face for the campus.

- **Math Jam** The award winning STEM Center Math Jam Program offers the opportunity for Cañada College students to improve their Placement Test results in Mathematics or prepare for math courses that they will be taking. The goal of Math Jam is to help students complete their Associates Degree and/or transfer requirements for a 4-year college/university in less time than previously possible. There are three Math Jam opportunities each year, all held during the intersession period that falls between semesters. Summer Math Jams are held in June and August and Winter Math Jam in January. Students can participate in either the Daytime or Evening Math Jams.

“THE ONE TIME WE OFFERED AN EVENING SESSION OF WORD JAM WE HAD ALMOST AS MANY STUDENTS AS THE DAY SESSION. AN EVENING SESSION IS ESSENTIAL FOR THE ESL DEPARTMENT STUDENTS.”

- **Word Jam** is a free, one week, non-credit program for current and in-coming Cañada College students in all levels of English, Reading, and ESL. Students in Word Jam work with Cañada College faculty to practice college-level reading and writing strategies, practice English, learn the expectations of their specific English, Reading, or ESL courses, and become familiar with campus resources. Past students in Word Jam have even boosted their Cañada College English Placement Test scores!
- **COLTS (Community of Leadership and Transfer Success) Academy 1 is a free 4-day** program for first-year incoming students starting at 9 a.m. and ending at 3 p.m. every day. The Academy provides students the opportunity to: Connect – meet fellow Cañada students, faculty, and staff, Lead – learn about leadership opportunities on campus, as well as how to be leaders in their educational journey, and Succeed – walk away with a Transfer Success Portfolio equipped with tools and resources for college success. The Academy features fun and interactive workshops, a powerful mix of peer leaders who will be the students' mentors-for-the-day, free academic resources, and an amazing opportunity for students to get a head start on their academic career at Cañada.

SPARK POINT is part of a regional United Way of the Bay Area network of financial education centers designed to serve individuals and families who are working to achieve financial self-sufficiency modeled on the Annie E. Casey Foundation's "Centers for Working Families ." Students and other members of the community utilize SparkPoint services and resources to achieve financial self-sufficiency. SparkPoint is a physical location on the campus as well as a network of services accessed throughout the campus. SparkPoint

serves students and other San Mateo County residents with an enhanced network of partnerships. Services and resources are bundled and sequenced to improve outcomes.

DREAMERS Task Force addresses issues related to immigrant students, with a large percentage of Hispanic students, by educating and training faculty, staff, and students, conducting outreach and raising awareness among campus and community members through printed materials, special events, and workshops. The Task Force is also responsible for acquiring and disseminating accurate information about policy updates and public and community events.

Course Completion (Retention) and Math, English Basic Skills and ESL Sequence Completion

ACES INQUIRY PROJECTS is a college-wide professional learning system for faculty, staff, and administrators to inquire into key equity issues and through a data-informed process, in collaboration with the office of Planning, Research, and Institutional Effectiveness, create assessable plans to support all students including Black and Hispanic as well as other student groups facing higher rates of disproportionate impact.

“ THIS REALLY HELPED ME THINK IT THROUGH ON A DEEPER LEVEL AND FORCED ME TO STEP OUTSIDE OF THE BOX AND INTO THE PERSPECTIVE OF OUR STUDENTS AND OUR COLLEGE COMMUNITY.”

(STAFF AND FACULTY PARTICIPANTS IN INQUIRY PROCESS”.

PUENTE program reaches out to all students, including a large percentage of Hispanic students, who take pre-transfer and Career classes in the fall semester. They then take College-level English and another Career classes in the spring semester. During both semesters, Puente students take part in events, such as trips to university campuses, and also receive mentoring from local professionals. Puente students work closely with their Puente counselor until they transfer to a four-year university.

BLACADEMIA at Cañada College consists of a group of educators working to improve the academic success of Black students. The BLACADEMIA group addresses issues of concern related to Black students by educating and training faculty, staff, and students, conducting outreach and raising awareness among campus and community members through printed materials, special events, and workshops. The group is also responsible for acquiring and disseminating accurate information about policy updates and public and community events.

LEARNING COMMUNITIES like ESL 400 and Library 100, ESL and ECE, and Puente create communities of learning that support success of students with Basic Skills needs.

COORDINATED INTRUSIVE WRAP-AROUND SUPPORT by counselors, embedded tutors, and retention specialists is provided in ESL, and Pre-transfer Math and English, and other disciplines where Hispanic and Black students face disproportionate impact. (See figure 4)

EMBEDDED TUTORING is a program designed to provide dedicated support for students and faculty in below transfer level and transfer level courses. An embedded tutor attends class sessions in order to provide course specific academic assistance in or out of the classroom.

WRITING CENTER The Cañada College Writing Center supports, motivates and educates students of all abilities and educational backgrounds who want to improve their writing skills, assignments and projects. In addition to open space available for writing, The Writing Center will provide opportunities to enhance writing abilities through Writing Coaching, Writing Workshops, Writing Series Activities and Faculty Participation.

Services that will be provided to students will include: Writing support across curriculum, writing support with course writing projects, de-mystifying the course syllabus, scholarship and college-admissions applications and writing prompts, information and support with the writing process, Thesis development, Writing mechanics information (brainstorming, idea development, citing, using sources). For Faculty, the following will be made available: workshops that can be presented to your classes, space to engage in conversations about different aspects of writing pedagogy, writing seminars and information sharing, welcome and open space to hold office hours/meet with students

TEXTBOOK LEARNERS COLLECTION (TLC) In order to alleviate financial obstacles for our ESL, Basic Skills, distance education, and other underserved students the Library will create a semester-long textbook and calculator reserve collection called the Textbook Learners Collections (TLC). In order to increase tutor effectiveness and student access, the Learning Center will have a collection of 2-hour check-outs of the same textbooks and calculators, as well as participating in the TLC program. Furthermore, to help bridge the technology gap, both the Library and Learning Center will loan tablets and Google Chromebooks to students. By providing Basic Skills, ESL, pre-transfer Math, and other underserved students with free long-term check-outs for textbooks, calculators, computers, and tablets, we expect to increase these students' retention and success rates. Textbooks can often be a hard

“THE PROCESS OF WORKING ON THIS PROJECT HELPED US GROW PROFESSIONALLY BY ALLOWING US TO EXPLORE ALL THE ELEMENTS THAT GO INTO CREATING A SUCCESSFUL WRITING CENTER, BY FORCING US TO ARTICULATE PEDAGOGICAL PRINCIPLES THAT WE HAVE TENDED TO TAKE FOR GRANTED AND CORROBORATE THEIR USEFULNESS WITH EXPERTS IN THE FIELD; BY PROVIDING US WITH OPPORTUNITIES TO COLLABORATE WITH FACULTY IN RELATED AND COMPLETELY DISPARATE DISCIPLINES; AND BY HELPING US TO BUILD RELATIONSHIPS WITH STUDENTS AND STAFF. “

ENGLISH FACULTY MEMBER

financial burden and lack of access to a monitor and keyboard set-up at home can have a negative impact on students' ability to access and complete assignments. This collection will elevate that financial burden while giving students more access to technology and make Cañada an even more desirable location for low-income, struggling, or otherwise underserved students.

VETERANS RESOURCE AND OPPORTUNITY CENTER (VROC) is committed to the task of supporting veteran needs while in attendance at Cañada College and beyond. VROC's vision is to provide veterans, of all eras, returning to school with personalized service and encouragement through connection with admissions & records/counseling services/financial-aid, fellow veterans, and veteran related agencies and organizations.

FOSTER YOUTH SUPPORT SERVICES will provide book and transportation vouchers along with increased outreach and retention services.

Degree and Certificate Completion

Key initiatives to support target students in degree and certificate completion include coordinated efforts in programs like Puente and College for Working Adults. In addition, in collaboration with Office of Planning, Research & Institutional Effectiveness, (PRIE), each intervention is studied to identify the level of effectiveness and adjusted accordingly.

Transfer

Key initiatives to support target students in Transfer include coordinated efforts in programs College for Working Adults. In addition, in collaboration with Office of Planning, Research & Institutional Effectiveness, (PRIE), each intervention is studied to identify the level of effectiveness and adjusted accordingly.

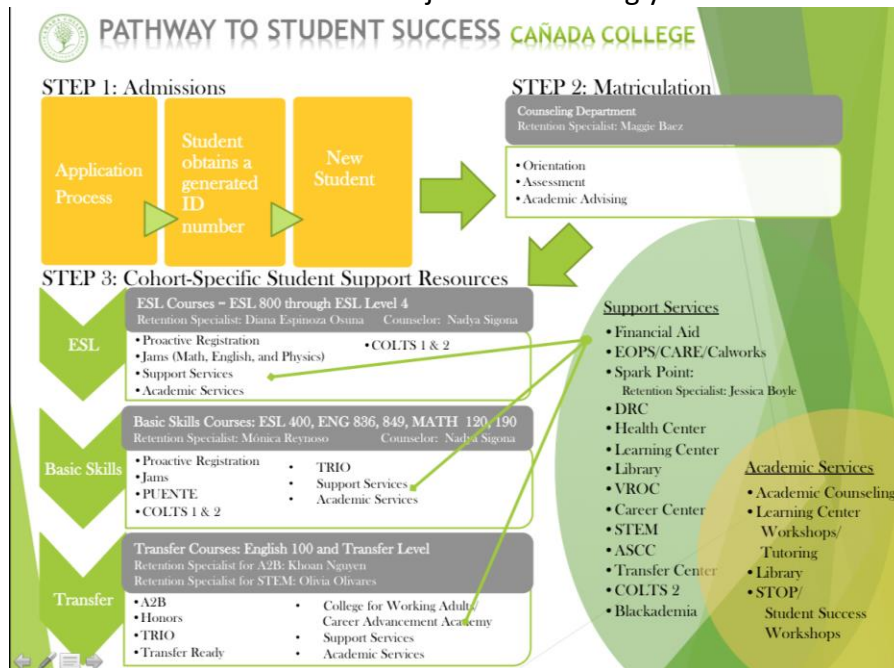

Figure 4 Coordinated retention and support

Community Collaborations

ADULT-EDUCATION COLLEGE and CAREER EDUCATIONAL LEADERSHIP (ACCEL): Cañada College is integral to the work of Adult-Education College and Career Educational Leadership (ACCEL), which is the planning body for San Mateo County responsible for carrying out the charge and opportunity of AB 86. ACCEL is collaboratively rethinking and redesigning Adult Education to accelerate student success. We are a coalition of adult schools, community colleges and partners throughout the region. Our mission is to support adult education students' transition to college, workplace success, and community contributions.

The California Legislature passed the AB 86 Adult Education Consortium Planning program to develop a seamless system of transitions between Adult Schools and Community Colleges. ACCEL's goal is to create collaborative relationships,

systems and strategies to achieve sustainable results

as community needs change. Our collaboration includes:

- A countywide Steering Committee developing integrated regional strategies
- Collaborative Action Teams (CATs) creating targeted initiatives to meet sub-regional needs
- Partnerships with community organizations, public agencies, employers, labor and philanthropy to expand options for adult learner

The administration, faculty, and staff at Cañada College are working in collaboration, across multiple disciplines, to build pathways towards the enhancement and success of Adult Education. The two areas that Cañada College is addressing are La Costa Adult School and collaborations with Sequoia Adult School and Job Train.

La Costa Adult School

Adult learners on the South San Mateo County Coast do not have access to adult education to improve language, math, technology, and career skills. To address this situation, Cabrillo & La Honda/Pescadero Unified School Districts, Cañada College, and Puente de la Costa Sur have collaborated to create La Costa Adult School. La Costa Adult

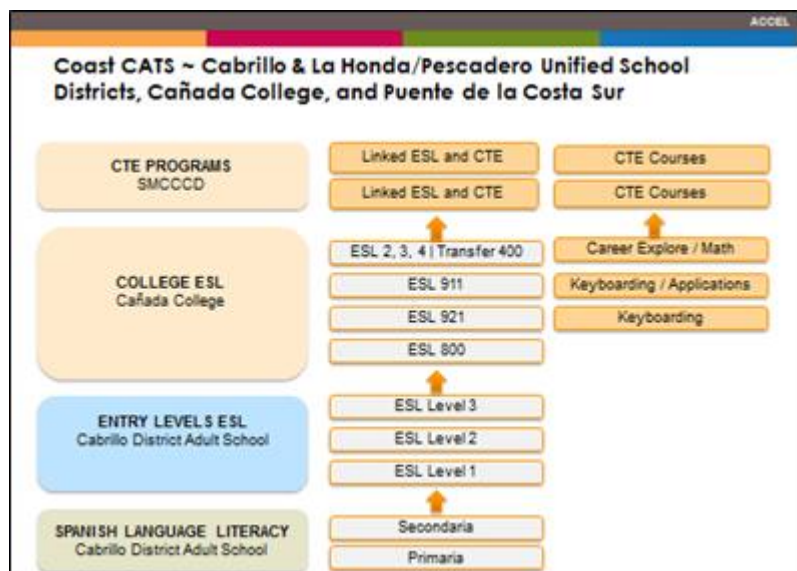

Figure 5 Diagram of Collaborative Action Teams (CATs)

School is comprised of two sites: one in Half Moon Bay and one in Pescadero. Spring 2016 offerings in Half Moon Bay will be Literacy to High Beginning ESL, ABE/HiSET Preparation, Career Ready 101, computer literacy instruction and tutoring. Offerings in Pescadero in collaboration with Puente de la Costa Sur in spring 2016 will be Spanish Literacy, Literacy to High Beginning ESL, GED/HiSET Preparation, Driver's Education, computer literacy and tutoring.

Sequoia Adult School, JobTrain, and Cañada College Collaboration

With the defunding of the R.O.P. ECE program offered by the San Mateo County Office of Education, Cañada College is proposing to offer a fast track program providing the entire Cañada ECE certificate in a two semester sequence. This program will be offered at the Menlo Park Center (Job Train) and will mirror the defunded program in terms of length and times but will offer all eight ECE classes for credit in the certificate.

Student Equity Funding and Other Resources
Contact Person/Student Equity Coordinator

Student Equity Funding and Other Resources

The funding for activities related to student Equity is coordinated and combined with our college's Basic Skills Initiative, SSSP, and our HIS Title V grant. We say that the funds are "braided" to help ensure the full-funding, coordination and stability of these activities. The crosswalk on the following page shows the integration of the various goals and activities related to student Equity.

Crosswalk of Initiatives to support Basic Skills and Equity

	<i>Equity Outcomes</i>	<i>Basic Skills Outcomes</i>	<i>HSI, Title V grant outcomes</i>	<i>Interventions</i>
<i>START STRONG</i>	<p>A.1 The percentage of Hispanic and African American students enrolling in Cañada College <i>will continue</i> to be 40% and higher and 3% and higher respectively.</p> <p>A.2., The number of students who have completed new student orientation, assessment and counseling will be monitored and analyzed.</p> <p>C.3 Increase the percentage of Hispanic and African American students being placed in higher levels of Math and English courses.</p>	<p>The percentage of incoming students with basic skills needs taking the placement test and succeeding in their course in which they enroll will increase by 2% on a yearly basis</p>	<p>Increase the percentage of entering students that participate in and benefit from academic preparation programs Improve existing expanded academic preparation program</p>	<ul style="list-style-type: none"> • Math, Word, Physics Jams • COLTs Academies • CWA
<i>STAY STRONG</i>	<p>B.1 By 2014-2015, 75% faculty, staff, and tutors for courses two-level below transfer in Math, English, and ESL will receive intensive and on-going professional development to successfully support students experiencing Disproportionate Impact</p> <p>B.2: 1. The number of students who have been contacted through the early alert program and Basic Skills Counselors will be monitored and analyzed. 2. The number of students who have completed a comprehensive educational plan will be monitored and analyzed.</p> <p>C.1: By 2014-2015, success rates of students in courses two levels below transfer will increase by 2%, thereby decreasing the disproportionate impact rates.</p>	<p>The percentage of students enrolled in basic skills/ESL courses with Student Educational Plans will increase by 2% on a yearly basis The successful progression rate of students from basic skills classes two levels below transfer will increase by 2% on a yearly basis</p>	<p>Increase participation in academic support services (targeting developmentally placed students) Improve, expand, and combine existing academic support services and “boutique” programs</p>	<ul style="list-style-type: none"> • Professional Development • Retention Efforts • ESL Retention (PL) • Tutoring/Mentoring • Writing Center • Sparkpoint Initiative • LD Counselor • Direct Support for Target Groups • - Book Loan Program • - Book Voucher Program • - Transportation Vouchers • Dreamers • Puente • Blacademia • CWA • Coordination • ESL Coordination • Evaluation • Research

Planning Committee and Collaboration

The Academic Committee for Equity & Success (ACES) Committee, the Student Equity Planning Committee, continues to work in collaboration with academic senate, academic faculty and staff, student services representatives, students, and appropriate community members to build an Equity plan that complements the college's mission, the Educational Master Plan, the Strategic Plan, The SSSP Plan, and the Basic Skills Plan.

This committee includes administrators, faculty, staff, researchers, students and others involved with other institution-wide planning and evaluation. It also includes representation from individuals involved in the following areas of student support:

- Disability Resource Center (DRC)
- Extended Opportunity Programs and Services (EOPS) / CARE/ CalWORKs/ Former Foster Youth Program
- Math, Engineering, Science Achievement (MESA) Program
- Puente Initiative
- Spark Point Initiative
- Cañada Middle College High School
- Student Success and Support Program (SSSP)
- Veterans Resource and Opportunity Center (VROC)
- Student Financial Aid
- Basic Skills Initiative (BSI)

The Planning Progress

Logic Models have been foundational in the planning process. Beginning with the professional learning to interventions to the disproportionate impact. Beginning with identifying the problem based on the institutional data and then different levels of outcomes and then focusing on outputs and inputs, relating them to qualitative and quantitative data after each intervention.

Student Equity Plan Committee Membership List

Member Name	Title	Organization(s), Program(s) or Role(s) Represented
		Student representatives
Doniella Maher	Professor	Basic Skills English Faculty
Elizabeth Terzakis	Professor	Basic Skills Reading Faculty
Michael Hoffman	Professor	Basic Skills Math Faculty
Hyla Lacefield	Professor	CTE / Workforce Development Faculty Representative
Jeanne Gross	Professor	ESL Faculty
Valeria Estrada	Professor	Library Faculty
Trish Guevarra	PSC	TRIO representative
Lorraine Barrales-Ramirez	Professor/Counselor	EOPS/CARE/CalWORKS/FFYSI
Diva Ward	Director	Learning Support Center
Daryan Chan	Professor/Counselor	Counseling Faculty
		2 Non-Basic Skills Faculty
David Johnson	Dean, HSS	Instruction Administrative Representative
Kim Lopez	VPSS (Interim)	Student Services Administrative
Monica Reynoso	Ret Specialist	Student Services Representative/Retention Specialist
Matt Lee	Div Assistant	Classified Representative
Chialin Hsieh	Dean, PRIE	Dean of Planning, Research, Student Success
Jenna French		Disabilities Resource Center
		Financial Literacy
Trish Guevara	PSC	Veterans
Mayra Arellano	College recruiter	Outreach coordinator
		Non-Basic Skills STEM Faculty
Lionel DeMaine	Director	Sequoia Adult School

Access

Cañada College is one of only three federally-designated Hispanic Serving Institutions in the San Francisco Bay Area. The primary service area for the college is the southern portion of San Mateo County, Redwood City, East Palo Alto, Menlo Park, San Carlos, Atherton, Portola Valley, La Honda, Woodside, Half Moon Bay, and Pescadero.

A large number of Cañada College students come from the East Palo Alto and North Fair Oaks communities. In East Palo Alto, 52% of adults over 25 do not have a high school diploma and only 10% have a bachelor's degree or higher. In North Fair Oaks, 47% of adults do not have a high school diploma. Given these statistics, as taken from Citydata.com in 2012, it is easy to see why so many Cañada students are first-generation college students.

The College data indicates that Asian, Veteran and over 40 year old students are disproportionately impacted and require support to access. To reduce the disproportionate impact for these student groups, the college is promoting the following initiatives: College for Working Adults, stronger support services for veterans, and investigation into applying for an Asian American and Native American Pacific Islander-Serving Institutions Program grant. In addition, a Dreamer Center will be created to support students transitioning from High Schools as well as Adult Schools.

College for Working Adults (CWA) is an evening and weekend degree program designed to improve access, retention, degree completion, and transfer for adult re-entry students. The CWA provides a clearly defined pathway that allows students to earn up to three Associate degrees in three years while working full time. The program delivers wraparound support services, including a designated counselor, predetermined curriculum, program orientation, peer mentoring, tutoring, and guaranteed enrollment in CWA courses.

Dreamer Center: In collaboration with EOPS and SparkPoint the college will be creating a Dreamer Center to support students from High Schools and Sequoia Adult School and the newly created La Costa Adult School. These efforts are coordinated with the college support for AB86: Adult-Education College and Career Educational Leadership (ACCEL): Achieving the promise of AB 86 in San Mateo County.

Veterans Resource and Opportunity Center (VROC): To improve access to our institution, Cañada College needs to reach out to veterans. In addition, the campus needs increased awareness and sensitivity of veterans needs on campus. Broad-based activities such as Veterans Week Celebration need to be expanded. More structured counseling and support staff in the Veteran's Center is needed to assist with these events and to assist veterans in transitioning to the college life. Staff will work with Veterans on Educational Plans, provide

information about Financial Aid and other resources to which Veterans are entitled. Initiatives to support Veterans in the classroom will be identified, such as designated tutors and mentors for Veterans, cohort models where possible, and supplemental instruction.

By having more events that honor returning Veterans and more veteran specific supports available, we expect to see an increase in the number of Veterans attending Cañada College.

Activity Implementation Plan

The college recruiter will work with ESL, English, and Math program coordinators to ensure students enroll in Word/Math Jam. In addition, the College for Working Adults coordinator and retention specialist will collaborate with the college recruiter to ensure the target students participate in this program that supports older students and ensures retention, success, and degrees for this and other disproportionately impacted students at a much higher rate.

In addition the Veteran Center coordinator will work closely with the SparkPoint coordinator to ensure all veterans receive relevant academic, psychological, and financial support in a timely manner.

• *Link to Goal*

In collaboration with recruiters, student ambassadors, LD counselors, and the Spark point and Dreamer Centers, enrollment for target students will increase. In addition, to improve the average placement of target groups, Learning Center staff and Math, English, and ESL faculty will be working to support students academically through Math Jam and Word Jam. In addition, coordinators and retention specialists in ESL and College for Working Adults will ensure students are registered in a timely manner in the appropriate classes.

• *Evaluation*

Each semester quantitative and qualitative data will be gathered to identify the impact of these practices. Faculty and staff participating in these interventions have been receiving training on surveys, inquiry session, focus groups, Data dashboard to gather and analyze all data to identify longitudinal impact on students participating in these interventions.

Course Completion

The following students are disproportionately impacted in retention and course completion: African American, American Indian/Alaskan Native, Hispanic, Low Income, Veteran, Foster Youth and Probation and Dismissal.

Cañada College has already begun addressing the level of support needed for these student groups through a variety of programs, with a focus on professional development to ensure these programs are scaled up and become institutionalized. These programs include:

Coordinated Retention Support by hiring a retention specialist to support students one and two levels below transfer. Through the Communities of Practice structures, retention specialists across campus collaborate to ensure their efforts and planned, data is compiled, and adjustments made based on the assessment of their efforts.

Puente Program: As part of the program, Puente students take English 847 and CRER 137 in the fall semester. They then take English 100 and CRER 110 in the spring semester. During both semesters, Puente students take part in events, such as trips to university campuses, and also receive mentoring from local professionals. Puente students work closely with their Puente counselor until they transfer to a four-year college or university. - See more at: <http://canadacollege.edu/puente/index.php#sthash.zWZAm134.dpuf>

Blacademia, which consists of a dedicated group of educators working to improve the academic success of Black students. The BLACADEMIA group addresses issues of concern related to Black students by educating and training faculty, staff, and students, conducting outreach and raising awareness among campus and community members through printed materials, special events, and workshops.

Professional Learning through inquiry projects and around research-based strategies to support men of color. These include Courageous Conversations through the Pacific Education Group (<http://www.pacifieducationalgroup.com/public/pages/home>), and Beyond Diversity, which is a powerful, personally transforming two-day seminar designed to help teachers, students, parents, and administrators understand the impact of race on student learning and investigate the role that racism plays in institutionalizing academic achievement disparities. In addition, the college has been promoting on-line trainings for Teaching Community College Men of Color through <http://coralearning.org/team/tcmoc/>

• **Activity Implementation Plan**

- **ACES INQUIRY PROJECTS** is a college-wide professional learning system for faculty, staff, and administrators to inquire into key equity issues and through a data-informed process, in collaboration with the office of Planning, Research, and Institutional Effectiveness, create assessable plans to support all students including Black and Hispanic as well as other student groups facing higher rates of disproportionate impact.
- **PUENTE** program reaches out to all students, including a large percentage of Hispanic students, who take pre-transfer and Career classes in the fall semester. They then take College-level English and another Career classes in the spring semester. During both semesters, Puente students take part in events, such as trips to university campuses, and also receive mentoring from local professionals. Puente students work closely with their Puente counselor until they transfer to a four-year university.
- **BLACADEMIA** at Cañada College consists of a group of educators working to improve the academic success of Black students. The BLACADEMIA group addresses issues of concern related to Black students by educating and training faculty, staff, and students, conducting outreach and raising awareness among campus and community members through printed materials, special events, and workshops. The group is also responsible for acquiring and disseminating accurate information about policy updates and public and community events.

- **LEARNING COMMUNITIES** like ESL 400 and Library 100, ESL and ECE, and Puente create communities of learning that support success of students with Basic Skills needs.
- **COORDINATED PROACTIVE WRAP-AROUND SUPPORT** by counselors, embedded tutors, and retention specialists is provided in ESL, and Pre-transfer Math and English, and other disciplines where Hispanic and Black students face disproportionate impact. The Retention Specialist is responsible for establishing and maintaining relationships with the campus staff/communities and off campus organizations; as well as, support on-going student support efforts to nurture existing relationships and become informed of the needs of specific student populations within assigned cohort. Currently, Retention Specialist participates as:
 - Active Member of Academic Committee for Equity and Success
 - Member of Communities of Practice
 - Pro-Active Networking with Major Campus Resource Staff
 - Member of ACCEL Bridge Institute

In order to inform and connect a cohort of 700 basic skills and ESL students retention services and other campus services, the Retention Specialist has implemented the following activities to keep students informed. These efforts include:

- Monthly Newsletter-How-to-Videos
- Classroom Visits
- Motivation Contacts- Emails send at various times in the semester to students in cohort to remind them about seeking their Retention Specialist and to provide a thoughtful note of encouragement.
- Case management of faculty referred students who receive early alert
- Workshops: Extended Technology Orientation

Link to Goal

In collaboration with Basic Skills and ESL faculty, the retentions specialists, tutor coordinator, leaders in Puente and Blacademia efforts, collaborate to support target students to increase their success and retention. Each of the more promising inquiry projects and scaled up to ensure a larger number of students benefit. Some of these inquiry projects include the following areas:

- **Math 120 Inquiry**: Registration, accelerated pathways
- **ESL student success**: Surfacing powerful practices and creating a video with student testimony on lessons learned
- **Lit. Review on student Motivation**: Annotated Bibliography, presentation
- **Students Transitioning off Probation (STOP)**: Intervention for students on probation

Evaluation

Each semester quantitative and qualitative data will be gathered to identify the impact of inquiry projects and the retention strategies. Faculty and staff participating in these interventions have been receiving training on surveys, inquiry session, focus groups, and Data dashboard to gather and analyze all data to identify longitudinal impact on students participating in these interventions.

Success Indicator: ESL and Basic Skills Completion

African American, Hispanic, Pacific Islanders, Males, 20-24, 30-39, 40-49 year olds, and students on Probation and Dismissal are disproportionality impacted in competing Basic Skills English courses

Student experiencing disproportionality impacted in competing Basic Skills Math courses include African Americans, Filipinos, Pacific Islanders, Unknown Ethnicity, Not recorded Gender, 50-59 years old and students on Probation and Dismissal.

And in ESL, Asian, Male, Younger than 20, 40-49 year olds, and Not low income students are experiencing disproportionate impact.

To support these student groups, the following activities have been implemented:

- **Puente** students take English 847 (pre-transfer) and CRER 137 in the fall semester. They then take English 100 and CRER 110 in the spring semester. During both semesters, Puente students take part in events, such as trips to university campuses, and also receive mentoring from local professionals. Puente students work closely with their Puente counselor until they transfer to a four-year college or university.
- **A retention specialist hired with Equity funds is providing Basic Skills Retention Support to 600 students.** This support is coordinated with other activities relevant to the target student needs including collaborations with the tutor coordinator to provide academic support through supplemental instruction and embedded tutoring.
- **A Writing Center** will be established to complement the academic support provided through Word Jam and the basic Skills English classes.
- **Academic Support** is provided through WordJam, MathJam, and Supplemental Instruction/Embedded Tutoring

Campus Based Research: ESL and Basic Skills Completion

The ratio of the number of students by population group who complete a degree-applicable course after having completed the final ESL or basic skills course compared to the number of those students who complete such a final ESL or basic skills course.

In 2011/12, English 836 is used as the English course that is one level below transfer.

English courses included as transfer level are English 100, 110, 161, 162, 164, and 165.

Low Income Cañada College students include any receiving a BOG A or B waiver, CARE grant, Chafee grant, Pell grant, or Foster Youth status at Cañada College includes students receiving a Chafee Grant and/or identifying themselves as an orphan/ward of the court of the Free Application for Federal Student Aid.

Care should be taken when interpreting results with subgroups of less than 10.

Data from summer 2011, fall 2011 and spring 2012

* Disability data uses data from Data on Demand from the Chancellor's Office. Success is defined as "percentage of credit students tracked for six years through 2013-14 who first enrolled in a course below transfer level in English, mathematics, and/or ESL during 2008-09 and completed a college-level course in the same discipline.

C.2	See Goals Table	400

• **Activity Implementation Plan**

In February 2015, members of the Academic Committee for Equity & Success (ACES) committee identified a need to provide proactive registration support for students in pre-transfer English and Math classes. For a few years now, the ESL department coordinator, the Basic Skills Counselor, and the ESL Retention Specialist has been providing this level of proactive registration and counseling support to ESL student students. Based on this model, the English Department Coordinator contacted faculty teaching English classes in the day and the evening to identify their interest in participating in the project. Faculty who responded to the survey were invited to participate in the proactive registration event. In this pilot stage 144 students were served. These students were registered for classes, resolving any registration issues, and assisting them with financial aid.

The outcomes of pro-active registration are:

- Enroll Basic Skills and ESL Students in next level of classes and Jams
- Provide just-in-time support services for registrations and programs to support target student populations.

In fall 2014, 26 sections of students in CWA, ESL, and Basic skills Math and English, with a total of 400 students attended the proactive registration event. It also entailed a collaboration of the Learning Center, Library, Counseling, A&R, BTO, MESA, and other student support groups. The planning group met regularly throughout the semester to organize the logistics and plan the most effective way to set this up. Planning included considerations about class schedules, data gathering, outreach across campus, and passports for students to access all resources available.

In addition, students will be guided to receive academic support with Embedded Tutors and the use of the Writing Center.

These kind of coordinated structures to connect Puente, retention efforts, academic support services, are key to the equity plan.

ID	Planned Start and End Date(s)	Student Equity Funds	Other Funds**
A.1 A.2	Jan 2015-on-going	\$ 94,301	SSP Title V College funds Basic Skills

• **Link to Goal**

Providing students with just-in-time academic and student support services as they continue through the sequence of courses will ensure their success in the sequence of courses. In addition, providing professional development to faculty and staff to provide culturally responsive learning environments, students will succeed and persist.

- **Evaluation**

Evaluation methods included Student surveys and student persistence, completion, and success data from the data dashboard.

- **Goals for Basic Skills Math sequence completion.**

C3 Increase successful Math course completion for target students

C4 Increase basic skills Math sequence completion for target students

Target Population(s)	Current gap, year	Goal	Goal Year

• **Activity Implementation Plan**

Students in ESL classes will be provided with coordinated academic and services support. For students studying ESL in the community, day care is provided to improve attendance and ultimately success and transition to classes on campus. In addition, provi

• **Link to Goal**

ESL students will successfully move into academic and vocational classes at a higher rate. The ESL Department, in collaboration with the campus researcher will continue to research whether the recent changes in the ESL curriculum will improve students' transition to other academic or vocational areas.

Providing students with just-in-time academic and student support services as they continue through the sequence of courses will ensure their success in the sequence of courses. In addition, providing professional development to faculty and staff to provide culturally responsive learning environments, students will succeed and persist.

• **Evaluation**

Evaluation methods included student surveys to analyze the high impact practices on student persistence and completion. These will be used to guide programmatic changes. An example of such appreciative inquiry is a student video identifying success factors for students who have transitioned from ESL to transfer level English classes. This video is being used by the department to motivate students to avail the academic and other resources available for ESL students.

Success Indicator: Degree and Certificate Completion

The target groups disproportionately impacted in completing degrees and certificates include African American, Multiple Races, Pacific Islanders, Males, Younger than 20, Veterans, students on Probation and Dismissal. To support these student groups and ensure their success the following interventions have been identified:

College for Working Adults (CWA) is the only program of its kind on the peninsula that makes it possible for working adults to complete multiple degrees in just three years while continuing to work full time.

Classes are held just 2 days per week on Thursday evening (5:00-10:00pm) and every other Saturday (9:00am-3:00pm). (Some students may need to complete a prerequisite math course that requires one additional evening class per week for one semester only.)

In addition to earning 3 Associate Degrees, all 60 units earned are fully transferable to the CSU and UC college systems. This program allows students to actually complete their first two years of a four year degree on the Cañada College campus.

Professional Learning through inquiry projects and around research-based strategies to support men of color. These include Courageous Conversations through the Pacific Education Group (<http://www.pacifieducationalgroup.com/public/pages/home>), and Beyond Diversity, which is a powerful, personally transforming two-day seminar designed to help teachers, students, parents, and administrators understand the impact of race on student learning and investigate the role that racism plays in institutionalizing academic achievement disparities. In addition, the college has been promoting on-line trainings for Teaching Community College Men of Color through <http://coralearning.org/team/tcmoc/>

Campus-based research: Degree and Certificate Completion

The ratio of the number of students by population group who receive a degree or certificate to the number of students in that group with the same informed matriculation goal as documented in the student education plan developed with a counselor/advisor.

Table D1: Degree and Certificate completion by population group

		Students with degree or certificate as their matriculation goal	Students who earned a degree and/or certificate		80% Index (Reference =Max)	Percentage Point Gap
			Count	Row %		
Ethnicity	African American	135	36	26.7%	50.4%	-14.4%

	Total	1,795	738	41.1%	100%	

Except for students with disabilities, all students with an informed matriculation goal were identified as those recorded in the Student Activities Reporting System (SARS) as having met with a counselor during the Summer 2011, Fall 2011, or Spring 2012 terms to discuss their education plan or degree/certificate requirements. For students with disabilities, 2008-09 cohort data from Data on Demand were used.

Low Income Cañada College students include any receiving a BOG A or B waiver, CARE grant, Chafee grant, Pell grant, or Supplemental Educational Opportunity Grant (SEOG).

Foster Youth status at Cañada College includes students receiving a Chafee Grant and/or identifying themselves as an orphan/ward of the court of the Free Application for Federal Student Aid. Less than 10 Foster Youth were identified in this analysis. They were not included in this analysis for privacy reasons as described in:

<http://nces.ed.gov/pubs2012/2012151.pdf>.

Care should be taken when interpreting results with subgroups of less than 10.

Goals, Activities, Funding, and Evaluation: Degree and Certificate completion

Goal

D1 Increase degree and certificate completion for target students

	students groups	Goals/success indicators	Activities	Funding Sources	Responsible party
Degree or Certificate	African American Multiple Races Pacific Islander Male Younger than 20 Veteran Probation and Dismissal	D1 Increase degree and certificate completion for target students	<ol style="list-style-type: none"> College for Working Adults Dreamers/Vet Ret/FY Outreach/SpkPT Students Transition out of Probation (STOP) 	<ol style="list-style-type: none"> Equity & college Equity, BS, & HSI Equity, college, & grant Equity & SSSP 	<ol style="list-style-type: none"> CWA Coordinators Dir Learning Center ACES Coordinator ESL Coordinator Dir Sparkpoint/EOPS

The goal is to improve degree and certificate completion for the following target populations identified in the college research as experiencing a disproportionate impact:

Target Population(s)	Current gap, year	Goal*	Goal Year
African American	14.4, 2014	Gap<3	2020
Multiple Races	7.6, 2014	Gap<3	2020
Pacific Islander	14.6, 2014	Gap<3	2020
Male	4.8, 2014	Gap<3	2020
Under 20	8.6, 2014	Gap<3	2020
Veteran	17.8, 2014	Gap<3	2020
Probation and Dismissal	30, 2014	Gap<10	2020

Activities

- **Activity Type(s)** College for Working Adults is the key initiative that Cañada has identified to support target students to success in completing degrees and certification.

D.1	Jan 2015- on-going	\$ 21,000	College funds

Transfer

Hispanic, students younger than 20, Low Income, Veterans, Foster Youth, and students on Probation and Dismissal experience disproportionately impact in transfer.

To ensure the success of these student groups, they will be directed to College for Working Adults which provides wrap-around academic and student support services to students.

Campus Based Research: Transfer

The ratio of the number of students by population group who complete a minimum of 12 units and have attempted a transfer level course in mathematics or English, to the number of students in that group who actually transfer after one or more (up to six) years.

Table E1: Transfer by population group

The goal is to improve transfer for the following target populations identified in the college research as experiencing a disproportionate impact:

Target Population(s)	Current gap, year	Goal*	Goal Year
Hispanic	17.3, 2014	Gap < 3	2020
Younger than 20	5.8, 2014	Gap < 3	2020
Low Income	16.5, 2014	Gap < 3	2020
Veterans	None were eligible for Transfer	Nonzero count, Gap < 10	2020
Foster Youth	None were eligible for Transfer	Nonzero count, Gap < 10	2020
Probation and Dismissal	None were eligible for Transfer	Nonzero count, Gap < 10	2020

*Expressed as either a percentage or number

**Benchmark goals are to be decided by the institution.

- ***Link to Goal***

Providing coordinated wrap-around support services including academic and student services will ensure student success.

- ***Evaluation***

Each semester quantitative and qualitative data will be gathered to identify the impact of these practices. Faculty and staff participating in these interventions have been receiving training on surveys, inquiry session, focus groups, Data dashboard to gather and analyze all data to identify longitudinal impact on students participating in these interventions.

Title V Program at Cañada College

Expanding Student Opportunities (!ESO!)

ESO (Emerging Scholar Opportunities) funds a variety of student services that are used to help incoming students make the transition from high school to college. Academic is cohort based, organized into teams that work directly with academic divisions.

Expanding Student Opportunities (!ESO!) :

6 Main Objectives

1. Increase the percentage of entering students that participate in and benefit from academic preparation programs (Math Jam, Word Jam, Physics Jam)
2. Improve existing expanded academic preparation program (Colts Academy)
3. Improve, expand, and combine existing academic support services and “boutique” programs
4. Increase participation in academic support services (targeting developmentally placed students)
5. Develop and implement transfer preparation program (Transfer Jam)
6. Increase the transfer rates to 4-year colleges

Title V Strategies § Peer mentors will:

- Engage entering students after application and at entrance
- Encourage entering students to participate in academic preparation programs
- Encourage students to utilize existing academic support services
- Guide students through the transfer process through participation in created Transfer Jam
- Work with existing Floor 2 programs to deliver comprehensive academic support services.
- Create programs and opportunities that will facilitate increased faculty participation on Floor 2
- Build on existing college resources to deliver comprehensive transfer programs and services Plans and Programs
- Track cohorts/participants to measure impact of programs and practices
- Share our knowledge and our findings §Professional development

Programs that are included as a part of the !ESO! grant implementation:

!ESO! Center Community , A2B, Veterans Services, Math Jam , BTO , MESA, Word Jam, TRiO , andPhysics Jam

Summary Budget

To provide an equitable environment for students, the Academic Committee for Equity & Success, has prioritized a foundation of learning for all constituents on campus. To that end, professional learning is supported on the following levels:

- ACES inquiry projects for faculty, classified, administrators, and students
- Consultation and training with Pacific Educational Group to initiate Courageous Conversations to around racial inequities
- Conference registration for state-level trainings to promote an equitable environment

In addition, key priorities include coordinated academic support services including retention support, embedded tutoring, and other high impact support services.

Summary Evaluation

The Academic Committee for Equity & Success (ACES) collaborates closely the Office of Planning, Research & Institutional Effectiveness to evaluate all projects. In addition, the college is working with an outside evaluator to assess the impact of the Inquiry projects leading to changes on campus to support students equitably.

The consultant will work with ACES co-directors to design and conduct internal formative evaluation of the ACES professional development and inquiry. This will involve:

- Providing technical assistance on evaluation to overall professional development effort and to individual projects.
- Attending, observing, and participating in ACES events
- Participating in planning and reflective conversations with ACES co-directors before and after events,
- Collaborating with ACES staff and campus researcher on development of evaluation plan, criteria, instruments, and tools to review team products
- Producing a final report.

In addition for all campus-wide initiatives to support equity, the Academic Committee for Equity & Success (ACES) and Office of Planning, Research & Institutional Effectiveness will be provide trainings based on evaluation principles compiled by Student Support (Re)defined and IEPI to better evaluate the impact of the interventions.

Campus-wide trainings include:

- Data Dashboard Training
 - Patterns of retention, persistence, success, transfer
 - Disaggregating data to focus on target groups
- Building Surveys
- Creating Focus groups
- Institutional data to support equity across campus

Summary evaluation schedule and process

To ensure culturally responsive evaluation, in preparing for the actual evaluation, a team is assembled to ensure the accuracy of the evaluation. This included on-going training for all stakeholders to participate in survey building, focus groups, and other data collection activities.

In collaboration with the office Planning, Research & Institutional Effectiveness (PRIE) and with outside evaluators, each intervention will be analyzed on a regular basis including the following schedule:

Formative evaluation

- Initial and ongoing interventions will be assessed regularly
- Through the inquiry process and each program intervention , logic models and data gathering is foundational
- Through internal or external evaluations make adjustments to each intervention.

Summative evaluation

- Assess the quality and success of each intervention as stated in the goals annually
- Present the information collected for project activities and outcomes to the campus regularly at flex days and through Board reports

All evaluation plans include students, faculty, classified, and administrators to ensure information is relevant items are developed in the evaluation process.

Evaluation steps

The evaluation process has been broken down into a series of steps, from preparation to implementation and interpretation.

1. Conceptual models like Appreciative inquiry and Logic Models are being utilized for each intervention to identify key evaluation points. This ensures that all participants and stakeholders understand the project's structure and expected outcomes, and helps focus on the project's most important elements.
2. Evaluation questions and defined measurable outcomes to evaluate the professional development activities are being divided into short-term and long-term, beginning with the more immediate people affected by the projects, ultimately leading to long-term impact on students across campus.
3. To ensure successful and meaningful evaluation both highlights and shortcomings for each project are being assessed.
4. As data is being collected, it will be analyzed by the participants and then reviewed by the office Planning, Research & Institutional Effectiveness to ensure validity.
5. Analyze data and will be presented on a regular basis at committee meetings, department meetings, and to the board following the processes of shared governance.

Student Equity Plan 2015-16 Budget

Part II: Planned SE Expenditures

Other Instructions

A complete list of eligible and ineligible uses of student equity funds is available on the CCCCO website at <http://extranet.cccco.edu/Divisions/StudentServices/StudentEquity.aspx>. Funding listed for specific activities in the plan narrative, must also be entered into the Summary Budget spreadsheet. Equity funds are intended to augment programs or services for students. Districts and colleges cannot use equity funds to supplant funding for programs, positions or services funded from another source, prior to the availability of equity funds in the 2014-15 FY. Multi-college districts who choose to conduct and fund student equity related activities at the district level must incorporate a description of those activities in one or several of their college's plans, and also include related expenditures in the Summary Budget spreadsheet for that college or colleges. The spreadsheet has a separate signature page from the narrative that requires the signature of the district chief business officer and the district chancellor or chief executive officer, since districts are the legal fiscal agent for student equity funds.

Eligible expenditures:

1. Targeted outreach to potential student groups and communities identified in the Student Equity Plan as being from disproportionately impacted groups, including targeted publications and outreach materials.
2. Student services and student services categorical programs that directly support improved outcomes on success indicators for target populations prioritized in the Student Equity Plan.
3. Research and evaluation related to improving student equity.
4. Hiring a student equity program coordinator and staff directly supporting and implementing student equity activities.
5. Support for student equity planning processes.
6. Food and beverages for equity-related planning meetings, professional development or student gatherings.
7. Professional development, including funding of consultants to educate faculty and staff on the effects of inequities and strategies to reduce them; methods for detecting and researching inequities and their effects on college programs and local communities; improving the use of data, and effective practices and methods for addressing and improving outcomes for under-served students.
8. Developing or adapting academic or career-related programs, curriculum and courses to improve student equity outcomes.
9. Providing embedded tutoring, counseling support for learning communities, and other instructional support services that do not generate FTES.
10. In-State travel in support of student equity. Out-of-state travel for college employees or students will be considered on a case-by-case basis, with prior approval from the Chancellor's Office.
11. Computers and related peripherals to be used primarily by students, excluding large scale technology projects.
12. Other Direct Student Support including books, miscellaneous supplies and materials for students, student transportation, and child care.

Ineligible Expenditures:

1. Construction, maintenance or purchase of buildings -- Student Equity funds may not be used for the construction, remodeling, renovation, maintenance or purchase of buildings.
2. Gifts -- Public funds, including Student Equity funds, may not be used for gifts or monetary awards of any kind.
3. Stipends for Students -- Student Equity funds cannot be used to pay stipends to students for participation in student equity activities.
4. Computers and related technology to be used primarily by faculty and staff, office supplies and furniture -- Student Equity funds cannot be used for purchasing computers for use by employees, office supplies or furniture (desks, chairs, bookcases, etc.)
5. Other Administrative, Faculty or Staff Salaries and Benefits -- Student Equity funds cannot be used to pay for any staff or administrative overhead costs that do not directly support Student Equity described in the college's approved plan, such as budget office staff, business office staff, etc.
6. Political or Professional Dues, Memberships, or Contributions -- Student Equity funds cannot be used for these fees or expenses.
7. Rental of Off-Campus Space -- Student Equity funds may not be to pay for off-campus space.
8. Legal and Audit Expenses -- Student Equity funds may not be used to pay for legal or audit expenses.
9. Indirect Costs -- Student Equity funds may not be used to pay for indirect costs, such as heat, electricity, or janitorial services.
10. Unrelated Travel Costs -- Student Equity funds may not be used for the cost of travel not directly related to Student Equity activities or functions.
11. Vehicles -- Student Equity funds may not be used to purchase or lease vehicles.
12. Clothing -- Student Equity funds may not be used to purchase clothing such as jackets, sweatshirts, tee shirts, or graduation regalia (with the exception of required work uniforms for students).
13. Courses -- Student Equity funds may not be used to pay for the delivery of courses, including tutoring and supplemental instruction that generate FTES.
14. Unrelated Research -- Student Equity funds may not be used for institutional research that is not directly related to evaluating or improving Student Equity outcomes.
15. Supplanting -- Student Equity funds may not be used to supplant general or state categorical (restricted) district funds expended on Student Equity activities prior to the availability of Student Equity funding beginning in FY 2014-15. Any direct student support provided should supplement, not supplant any services provided to students currently participating in college categorical programs and any other federal, state, and county programs.
